Business English - Cambridge Certificate

Dear (Name)

A language is best learned where it is spoken and when it is taught by native speakers. This way, learning becomes natural and more interesting, and it is a lot of fun, too! Combining lessons with a holiday/vacation is ideal. How about a personalized intensive course for adults in England or the USA? These courses can be booked as special Business English courses. Learn English and have a lot of fun while meeting new people in a new country, and maybe making life time friends.

When comparing language courses please pay attention to the following points:

Highly qualified teachers

We exclusively employ qualified native English speaking teachers.

Small classes

The maximum number of students in a class is 15. On the first day, all students take an entry test. Based on this test, students are sent to different classes.

Excellent accommodation: carefully selected host families and hotels

Our host families are inspected several times during the season. Adults may choose to stay in a hotel, instead.

Experience and tradition

Our goal is to combine language experience and language instruction in the country where it is spoken, by persons who are native speakers. Our local organizers have taken care of students for more than 20 years!

Our website www.eurolanguage.com provides all important information and details on our courses, on the different course types, and the course locations is also available - from lessons to host families to our great activities and excursions.
