

Critics say that the purpose of Neil LaBute's plays is to make the audience think about their lives, choices, behavior.
In how far does he succeed with you?

Succeeded because it makes us think about it
↓
happens in everybody's life

maybe without noticing it

Have ~~you~~ you ever changed your partner?

Your friends/family will notice and they will confront you

did you ever get changed by your partner without noticing it?

Success depends on who reads the book
↓
you have to be interested

Don't change your social position

How far would you go for your partner?

Don't be too dependent

It lies in the nature of a book to make someone think, but he doesn't commit to the idea of making his readers think about those topics

Are you allowed to change your partner?

yes, but not too drastically
(bad habits → nail biting, smoking)

No, you're not allowed to change him/her as you like
