

Machine Intelligence Makes Human Morals More Important by Zeynep Tufekci

A. Listen to the first part of the talk and take notes on the following questions:

01:22 – 05:15 (3:53 min)	What was the initial “error” Zeynep Tufekci mentions in terms of her choice of job?
	Name two examples she mentions in order to illustrate ethical decisions made by computers?
	... and two examples that illustrate how “our software is getting more powerful”?
	What is the downside to the method of machine learning?

B. Take notes on her example of how Facebook makes decisions for humans.

12:50 – 14:36 (1:46 min)	Example: Facebook - Ferguson

Individuum in der Arbeitswelt

C. Take notes on her (final) conclusion.

14:36 – end (3:06 min)	Conclusion
